

# BACK 2 SCHOOL

AUGUST 30, 2021

Though a majority of students will return to school five days a week, we anticipate that a small subset of students will need to continue remote learning based on medical needs verified by a healthcare provider. To support these students, CPS is launching Virtual Academy: a central model of remote instruction. All instruction in the Virtual Academy will need to be in compliance with [Illinois School Code 10-29](#). Students will be able to transition back into in-person learning (at the quarter mark for elementary, and at the semester mark for high school) based on changing situations. All students not enrolled in the Virtual Academy will attend in person learning next year.

Applications for Virtual Academy will be approved through the Office of Student Health & Wellness. **The APPLICATION WINDOW opens June 18th and closes July 23rd.** To learn about Virtual Academy please visit [cps.edu/VirtualAcademy](https://cps.edu/VirtualAcademy) or see the [Principal FAQ](#) here.

The definition of [medically fragile](#) was defined by the Office of Student Health and Wellness. Based on current student data, a preliminary list of students at your school who may qualify is available in your school's Google Drive.

- To access your school's roster of potentially medically fragile students, locate the file in your school's folder in Google Drive titled Virtual Academy - Potential Student List\_<SCHOOLID>. Please note: schools that do not have any potentially medically fragile students will not receive a school inventory file.
- For instructions on how to access your roster file in Google Drive, please refer to [this](#) step-by-step guide. If you have any issues accessing your roster, please reach out to [etlsupport@cps.edu](mailto:etlsupport@cps.edu).

We will continue to share additional details about the upcoming school year as soon as possible. Thank you for your continued partnership.
